

CREATIVE CIRCLE

CHILD DEVELOPMENT CENTER

Spark Hope for a bright future,
SPONSOR A CHILD

Who is CREATIVE CIRCLE?

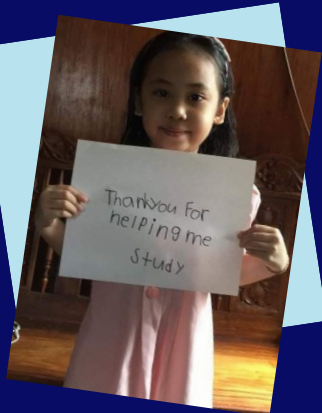

Creative Circle is a progressive and inclusive Child Development Center (CDC) for typical and children with disabilities ages 1.5 - 4.11yrs old.

Our center is best known for its advanced academic program and curriculum for young children. Matched with an exceptional early intervention program for children with disabilities, we are able to provide a nurturing environment, care and education for all children.

WHO NEEDS OUR HELP?

With health taking precedence over education in the current COVID Crisis, some of our students were sadly forced to discontinue their education due to lack of resources. Because of the pandemic, many families are struggling to continue their children's education. And for families with children with disabilities, the struggle to provide the much needed therapy is very real.

We at Creative Circle believe that no student should be left behind. Quality education should not just be for those who can afford. Let's also not forget how therapy is very important and needed to help children with disabilities gain the needed tools for their development.

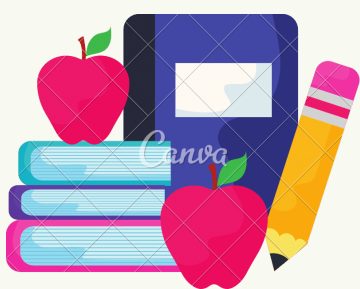

Sara is a very intelligent and friendly 4yr old girl. She loves drawing, reading books and playing with her doll. She is focused and attentive. She has skills beyond her years. She dreams to be a doctor one day. She is the youngest of 3 siblings and due to very limited resources, her mother opted to send her older siblings to school instead of her. But thru a kind and generous sponsor, she is able to receive quality education here at Creative Circle. She was also given the necessary tools so that she can join the online classes. Her sponsor is making a big difference in her life! There are many children like Sara, waiting for a sponsor to help them receive quality education. Sponsor a child and Creative Circle will provide the skills and tools to nurture and maximize their potential. Let's make dreams come true!

Herbie is a sweet boy with a ready smile for everyone. He has a sense of humor too. When he hears the "twinkle twinkle little star," he lays down, pretends to sleep and snores loudly! He loves oranges and shares with everyone. He loves to dance too. He is diagnosed with Autism Spectrum Disorder with delays in all domains. He is non verbal, but with therapy he is starting to say a few words and mouth lyrics of favorite songs. His focus and ability to sit thru an activity is growing. He is able to interact with others better now. The youngest of 5 siblings, he stopped therapy when both parents lost their jobs at the start of the pandemic. Because of sponsorship, he is able to continue with this much needed therapy now. Please help another child get therapy to help them learn skills and tools that will enable them to be more independent and productive. Creative Circle will provide these skills and tools.

HOW CAN YOU HELP?

SPONSOR A CHILD'S EDUCATION

For a minimal fee of P20,000 (425\$/full school year) or P2,000 (43\$) monthly payment for subscription for 10 months, you will be able to give a child the gift of a full-year quality education here at Creative Circle, which will equip the child the best tools for the big school.

SPONSOR A CHILD'S THERAPY

For a minimal fee P30,000 (638\$/full school year) or P3,000 (63\$) monthly payment for subscription for 10 months, we will provide virtual therapy appropriate to the needs of our beneficiary, to help support the child's (and parents) ability to thrive and cope, given his disabilities.
